Approved buyer internal policy v1.0

Buyer: Aster Finance (fictional).

Vendor: Lantern AI | Service: Support Reply Assistant | Environment: production

Coverage: October 2026 (2026-10). Issued: 2026-10-01. Version: 1.0. Review as of: 15 October 2026.

Approved internal buyer policy v1.0, effective 1 October 2026. Approver: Aster Finance Risk Committee (fictional). These are demonstration buyer requirements, not a legal framework or a claim of regulatory compliance.

Training use

Customer prompts and outputs must not be used for model training. Provide the scoped training-use configuration.

Data retention

Customer prompts, outputs and diagnostic logs containing customer content must be retained for no more than seven days. The limit includes troubleshooting logs.

Human oversight

A human support agent must approve every AI-drafted reply before it is sent to a customer. Provide workflow settings and completed review records.

Model change notice

Notify the buyer at least seven calendar days before a production model change and record buyer approval before deployment.

Subprocessor disclosure

Provide a current register naming every downstream provider that handles customer prompts or outputs and its service role.

Evidence currency

Evidence must identify this vendor, service and production environment and be dated within 90 days of 15 October 2026. Superseded records must not be used as current evidence.
