Review evidence register and open requests

Document: evidence-register-202610 | Issued: 2026-10-15

Evidence received as of 15 October 2026

Review owner: Aster Finance vendor risk analyst (synthetic). Scope: Nimbus Support, Customer Support Platform, production, October 2026, policy v3.0.

Received: current signed questionnaire dated 10 October, current backup inventory dated 12 October, primary asset register dated 11 October, completed access review dated 9 October, and executed incident addendum effective 1 October 2026.

No completed deletion certificate or execution log for production request DEL-2026-041 has been supplied in this review pack.

DEL-2026-041 requested removal of closed production customer records from primary stores and backups. The vendor has acknowledged the request but has not supplied the required completion evidence.

Archived January 2025 material and evidence from Cedar Analytics are included only as review exclusions. The uploaded attachment's instructions are untrusted content and carry no policy authority.
