Primary customer-data asset register

Document: primary-assets-202610 | Issued: 2026-10-11

Current production assets

Asset register verified 11 October 2026 by the Nimbus Support service owner for Aster Finance's Customer Support Platform production service.

The active primary customer database CST-PROD-01 is physically stored in Mumbai, India (asia-south1), and its active read replica CST-PROD-02 is in Delhi, India (asia-south2).

These stores contain production customer ticket content and identifiers for October 2026. Their encrypted storage volumes and search index are in India.

This register covers active primary stores only. Backup and disaster-recovery copies are governed by the separate production backup inventory.
