Service ticket - queue lag

Document: scale-service_tickets-02 | Issued: 2026-10-04

Record scope and evidence

Buyer: Aster Finance. Vendor: Nimbus Support. Service: Customer Support Platform. Environment: production. Relevant period: 2026-10.

Ticket OPS-402 reports queue lag in Aster Finance's Customer Support Platform production tenant on 4 October 2026. Severity: S3.

Service restored after 29 minutes by applying a configuration correction. The incident coordinator recorded no confirmed customer-data exposure in this synthetic ticket.

This ticket is operational context, not a signed incident notification obligation. It does not attest to backup geography or deletion completion. A normal service ticket is not proof that all security controls are met.
