Service ticket - email delivery retry

Document: scale-service_tickets-04 | Issued: 2026-10-06

Record scope and evidence

Buyer: Aster Finance. Vendor: Nimbus Support. Service: Customer Support Platform. Environment: production. Relevant period: 2026-10.

Ticket OPS-404 reports email delivery retry in Aster Finance's Customer Support Platform production tenant on 6 October 2026. Severity: S3.

Service restored after 47 minutes by applying a configuration correction. The incident coordinator recorded no confirmed customer-data exposure in this synthetic ticket.

This ticket is operational context, not a signed incident notification obligation. It does not attest to backup geography or deletion completion. A normal service ticket is not proof that all security controls are met.
